Values

Effectiveness | Technology | Innovation | Quality | Diversity | Customer Satisfaction

Strengths

Our strengths are our team experience in understanding our client's requirements and business objectives, advising and implementing strategies, innovative business solutions and the best digital technologies which best fit our client's business requirements and future goals. Furthermore, due to our team long and extensive experience in the Middle East region, it makes market acceleration one of our main strengths.

Our Partners & Services
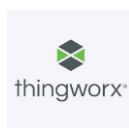

- **Digital Health Solutions:**

  - Fully integrated telehealth platform includes FDA 510(k) class II cleared telehealth medical device, cloud services, a Virtual Exam Room (VER), clinician and administrator portals, and a VER product line that supports patients from incident, to hospital, to rehab, to home recovery

  - Digital diagnosis solution; the he world's first Android based home blood diagnostic device called "elemark®" testing 6 parameters related to metabolic syndrome.

  - By digitizing information and gradually eliminating the deeply entranced paper and pen-based system, they offer the manageability and accessibility to medical information in unique means that will deliver immediate improvement in profitability, increase in work productivity and raise the efficiency and effectiveness of medical care

  - Wireless temperature sensing systems to serve the sport, occupational safety, military, manufacturing, agriculture, and research industries.

- **IoT Solutions / Smart Cities:**

iThing! IoT Solution Aggregator. We do this by leveraging our technology partner ecosystem to provide aggregated, end-to-end, ready-to-deploy IoT solutions with best-of-breed components, ranging from fulfillment and secure connectivity of 'things' to data aggregation, analytics and applications. The key value to IoT is the ability to realize advantages in how you do business. iThing! will partner with your business to formulate a result driven strategy for leveraging IoT solutions. We work with you to plan an approach to provide immediate results and get positioned to stay ahead of the competition.
